
Parliamentary year 2022-2023

36 200 IV

Establishment of the budgetary statements of Kingdom Relations (IV) and the BES fund (H) for the year 2023

Nr. 22

MOTION OF THE MEMBER VAN RAAN C.S.

presented on October 20, 2022

The Parliament,

hearing the discussion,

noting that Plantation Bolivia is part of an important bird area;

noting that, according to current zoning plans, it is not allowed to build on Plantation Bolivia;

noting that a project developer has plans to build on Plantation Bolivia;

noting that recent research by the Council for Law Enforcement shows that the issuance of land on Bonaire does not always proceed according to the rules and probably partly because of this a lot is built on Bonaire without the correct permits;

Calls on the government, in dialogue with the Public Entity Bonaire, to ensure that no irreversible steps are taken with regard to building on Plantation Bolivia until the development program has been established.

And proceeds to the order of the day.
